👋 WCCP Here I Am

Service Type	📄 Service: 0
🖥️ Web Cache	10.2.99.99

👁️ WCCP I See You

🖥️ Router	10.2.99.2
-----------	-----------

🗑️ WCCP Removal Query

💡 Web cache announces itself to router – WCCP enables transparent HTTP redirection so clients don't need proxy configuration

💡 Router acknowledges web cache – includes member list so all caches know the cluster topology

💡 Router asks web cache to confirm removal from the service group – cache must respond or be forcibly removed
